# HARMONICS

## HARMONICS IS THE MODERN APPLICATION OF THE ANCIENT WISDOM RELIGION OF ETHERIA.

The Science of HARMONICS has, as one of its major goals, an attempt to raise the whole of Reality to one Basic Formula. It seeks to include both the human and the Divine Nature within the framework of a unified mathematical system.

A study of this all-inclusive System enables us to understand what "God" is now waiting to do for us, and shows us how to co-operate with Life to achieve the ultimate goal of all human endeavors, that is: the Union of the lower nature with the Higher Self, a literal transmutation of the human into the Divine.

The word HARMONICS will henceforth serve to identify this special and specific movement of The Etheric Brothers as one of Their major channels of Instruction for the remainder of this Century of Uncertainty in our solar system.

The Philosophic System of HARMONICS shows us the proper relation of all the parts to the whole. It pinpoints our place, as future Initiates, in the entire Evolutionary Pattern and Program of the Divine-Mind-Heart-Spirit.

HARMONICS provides us, further, with a Method for Self-development that will surpass our present state of consciousness and limited human activities. At this point the scientific aspect of HARMONICS gives way to the ART of HARMONICS, as we put into practice its formulae; and become individual creators.

If the Harmonic Formula is applied the results are certain to be achieved. The time element will depend upon the intensity of the Desire and the strength of the Personal Will, in each Student of this Modern Science of Balance.

The Science and Art of HARMONICS is two-fold in its action: It seeks first to harmonize the Individuals lower nature with his Higher Self. By so doing it will eventually harmonize the affairs of communities and nations.

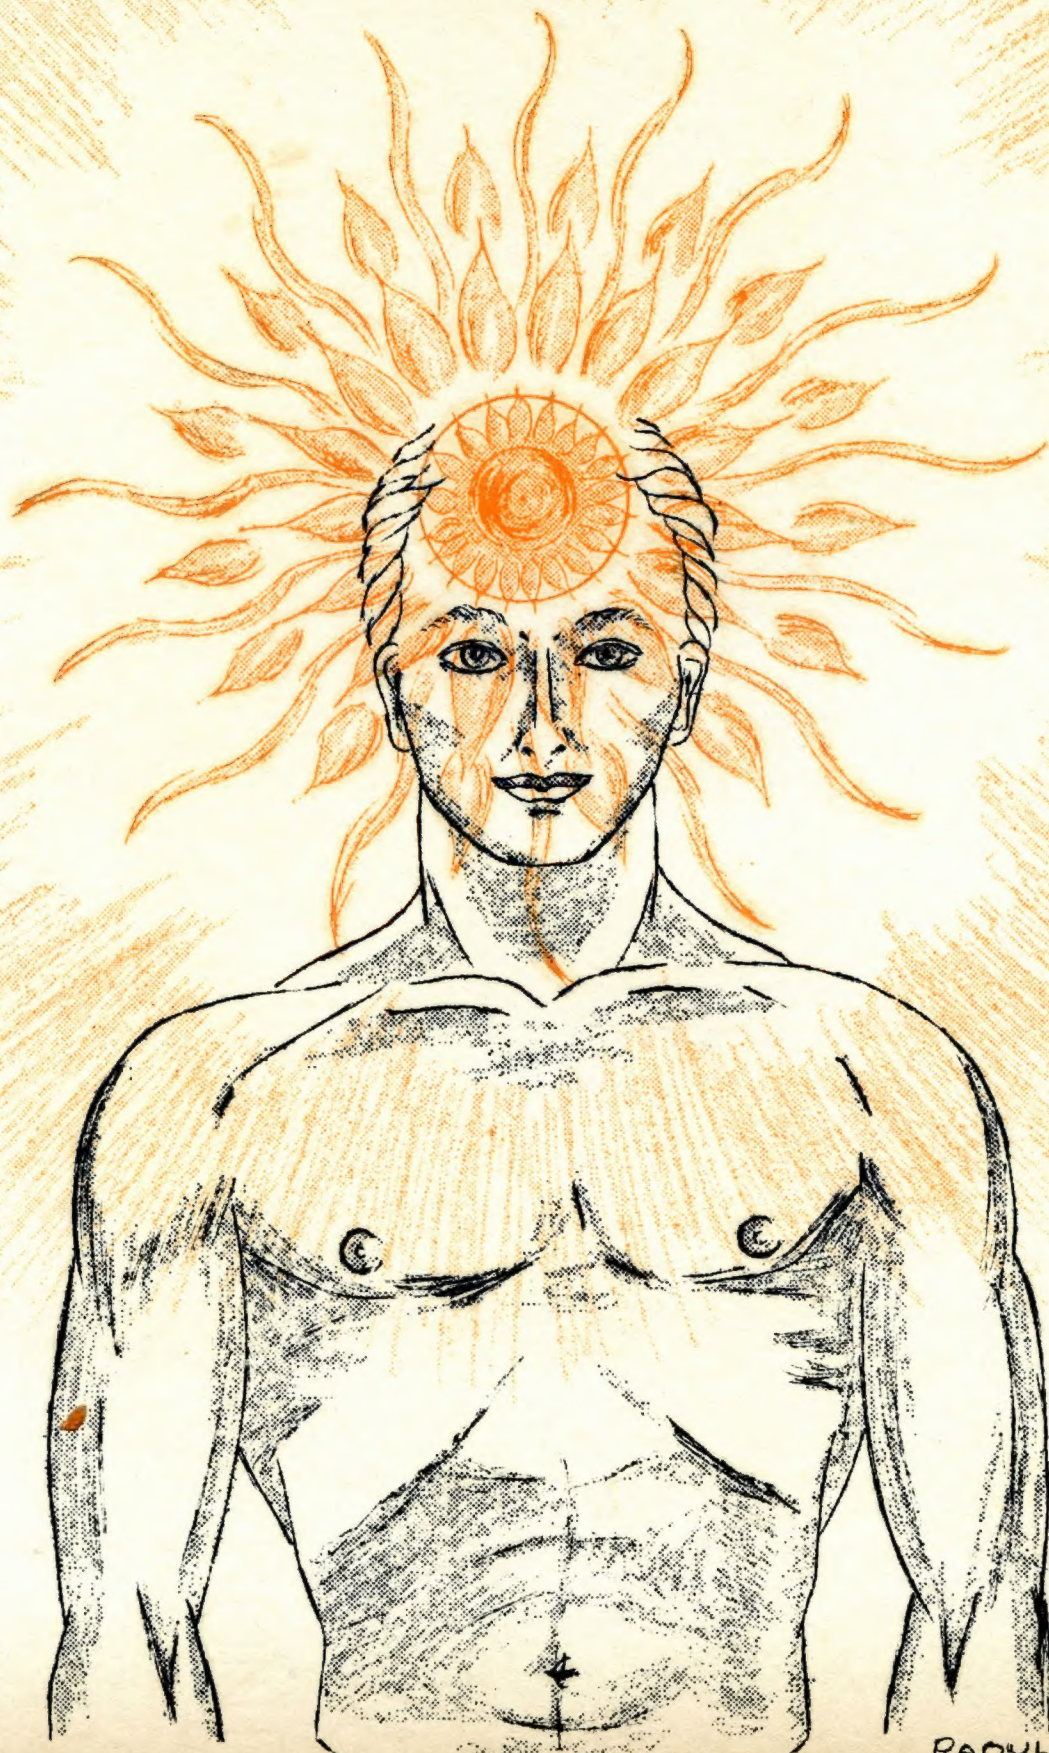

FIRST, each of us must harmonize and balance our own personal worlds and lives. Then, and not until then, will world balance and harmony be achieved! Your problems thus become the problems of Humanity. And, more importantly, the trials of Humanity become part of your personal responsibility and concern. HARMONICS is thus the answer to your problems. And HARMONICS is also the solution of the world's problems--since each of us make up the complete world.

HARMONICS IS THE CHANNEL OF LIGHT FROM THE ELDER BROTHERS OF UPPER-ETHERIA (And HARMONICS is the open doorway into your own personal, eternal Freedom.)

The thirty-six Lessons in HARMONICS, together with the Brochures & Bulletins, are sufficient to establish your life and affairs on the changeless foundations of the Harmonic Law of Personal and Individual Balance. And this is Perfection.

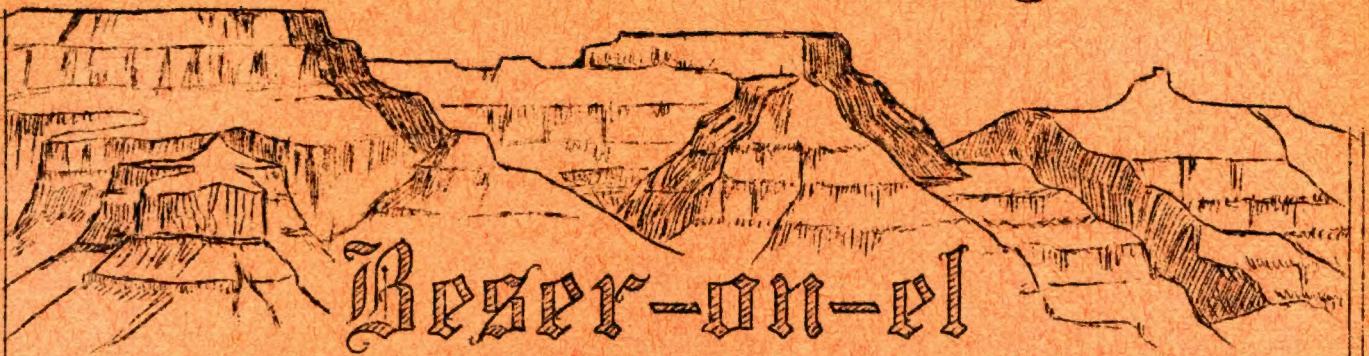

RAOUL BLAKE

SUN-CROWN-CENTER

BESER-ON-EL IS A MYSTIC NAME, A WORD OF POWER, A STATEMENT OF PERFECTION. Students of the Kabbala are familiar with the code spelling BESR-N-L, implying the existence of six completed principles, or ideas, which totalled together produce a seventh principle embodying the essence of the six.

This seventh principle is the Sun, the parent and creative source of the other six forces, planets or centers of consciousness. In some systems the Sun is representative of The Christ (the anti-Christ being Saturn, or Satan, at the base of the human spine.)

However the sacred name is spelled, and however it is understood, there is universal agreement on its location, as a Temple of Light, in the area of the Grand Canyon of Arizona. Every religion of any merit has contained a legend, or tenant or reference, to Beser, The Beautiful, Lord of the Sun. (There are abundant references in the hundreds of early Christian scriptures which are no longer used as a part of modern Christian history.)

Among the so-called primitive religions of the planet we find many more references to the Temple of the Sun than are available in the various religious philosophies of our civilized races. Indeed, it may be taken as a rule that the more civilized a nation becomes the more artificial, and inaccurate, does its religious background become. God is soon forgotten, if not altogether dispensed with, as soon as a nation manages to surround itself with an abundance of creature comforts and material security.

And, according to the ancient legends, it was just such a state of material luxury and philosophical starvation that produced the incredible manifestation of nature called the Grand Canyon. In the Christian Bible this area is spoken of as Sodom and Gomorrah, an area in which not even ten good men could be found who would, according to the scriptures, justify the Lord in not releasing the fires of heaven to consume the whole land. Near by, in the same general vicinity, is found another strange and eerie manifestation of nature---Bryce Canyon. This smaller canyon is even more impressive in its exotic mysteriousness than is the overwhelming canyon of the Colorado. In Bryce Canyon the tourist amuses himself by counting the number of remarkable likenesses to humans, animals, plants, and building he can see in the brilliantly colored stone cliffs and monuments of the canyon. No one who has once stood before this "freak of nature" will ever feel quite as secure in his own identity, his ego, as did he before he came to Bryce and its spell.

FOR MANY YEARS IT WAS POPULARLY SUPPOSED THAT THE GRAND CANYON WAS THE RESULT of erosion produced by the Colorado River as it wound its way over the land. Bryce Canyon and its fantastic figures, were supposed to be the result of similar erosions produced by a stream which today is so tiny one can leap over it with ease. As the New Age brought its dynamic souls into new human bodies traditional observations on many points were challenged by the young, vigorous minds of a generation that had little patience with the staid smugness of grey-haired science and its priests. These younger geologists found it impossible to believe that the Colorado River could ever have produced the astonishing spectacle we know as the Grand Canyon. And they were equally impatient with the stupid theory that a tiny streamlet of water could, in even millions of years, produce such bewildering manifestations as we see today in the rainbow-colored rocks of Bryce Canyon.

Today the aggressive geologist, unfettered by the paralyzing stupor of tradition, finds a more logical, and acceptable, explanation for these gigantic wonders of nature in the newly-discovered phenomenon of cosmic eruptions, coming from far out in our solar system. These magnetic storms of incredible fury were known to the ancient philosophers, as they are known today in modern planetary schools. But the wise men of old understood something few of our scientists have yet discovered. Religious histories are replete with records of disaster coming upon a tribe or nation when that nation or people had touched a low level of morality and personal responsibility. The holy books of all great religions contain many accounts of the degeneration of a people. They tell also how the prophets and saints of those nations strove to bring their people back to the ways of righteousness and honor. Finally, when further human degradation seemed impossible (as in the case of Sodom and Gomorrah) God unleashed a torrent of heavenly fire, water, wind and earthquakes to destroy the wretched people--and to cleanse His earth of their defilement.

The relationship between our own human minds and bodies, and these cosmic eruptions, is a matter which the ancient teachers understood fully. These great Men of Cosmic Wisdom knew that the sum total of magnetism in our solar system is never static and consistent. At times it is intense; at times it is mild in comparison--like the tides moving in and out upon our shores the world over. In the case of Sodom and Gomorrah, the Wise Men perceived that a high point was approaching in the atmosphere of our planet which would be fatal in its power unless the magnetic radiation from our human bodies was quickly purified and properly balanced. Messengers went to every corner of the great kingdom of Beser, through which flowed the beautiful sacred river known today as the Colorado. A magnificent city had been built along the shores of this Nile of the West. It was a tropical paradise of fantastic beauty and splendor extending as far north as Wyoming (where tropical plants and fossils abound in almost perfect preservation). The Great Salt Lake existed then as a sparkling Sea of Crystalline Waters reaching down into the Gulf of Lower California, and making the surrounding lands a gigantic garden of eternal spring, richly endowed with every gift of mother nature to gladden the senses of that favored humanity.

Beser - Two.

THE CIVILIZATION OF THAT DAY AND AREA WAS DISTURBINGLY SIMILAR TO OUR OWN! There was great wealth, much personal leisure, an abundance of material convenience and a deep sense of personal security. There was however, one very considerable difference between ancient Beser and our modern civilization: All of the luxury and convenience of those days was produced by mental power! Toil, as we know it today, was something none in ancient Beser could have understood---for the human body was the source of all energy and force needed to provide those ancient peoples with every convenience. The peoples of Beser used their bodies with the brilliant science of the Adept of Cosmic Law. The phenomena of precipitation, apportionment, transmutation was commonplace to all of them. They did not have to "labor by the sweat of their brow" to produce anything they needed---but they DID have to abide by the majestic currents of Cosmic Consciousness which moved in and out of their bodies like the rhythmic tides of blood sweep in and out of our hearts, now. The people of Beser were growing more and more indifferent to the fundamental laws of their very existence, and in this lay a great danger.

The Messengers of the Wise Ones took Their warning to every province of the Kingdom. They were politely listened to--and then forgotten. An old story! Eventually, the great luxury and leisure carried this civilization to states of licentious indulgence and debauchery which made the Guardians realize They would never return to "normalcy" to "sanity" and sensibly control the Currents of Life as they pulsed through their physical bodies. Had the people of Beser done so, they could have cleansed their auras of all imperfection, purified their magnetic radiations of all dangerous vibrations, and easily survived the great tide of cosmic energy which was to touch our planet according to an exact schedule known to the Teachers.

Before the appointed time of this cosmic eruption, a relatively small company of students and their families sailed up the great inland Sea of Beser to a place in western Colorado, and established a temple-city in the mountains of the Rocky Range (which may explain the attraction so many students of today feel toward this majestic area of mountains and rocky eminences.)

Back in Beser, once the greatest of earth's mighty kingdoms, the people continued their senseless folly, totally indifferent to the approaching hour of their doom. When the cosmic tides of planetary magnetism struck our earth, exactly on schedule, there were many reactions, results, repercussions and developments. Those in themselves would fill a large volume. In this lesson we are most concerned with the fate of the favored land of Beser and its men and women---for The Guardians tell us that our earth is again approaching a period of cosmic eruption very similar to that which destroyed Beser!

There is, however, a tremendous point that, to Students, is far more important than the possibility of destruction such cycles always bring. It is the possibility of achieving greatly accelerated knowledge and power in our personal lives and affairs. Extraordinary dangers provide extraordinary opportunities for personal self-expression. The wise student seeks these out.

WHATEVER DISAGREEMENT THERE MAY BE ABOUT EVENTS TO COME IN THE FUTURE YEARS, we are all completely agreed on the fact that our present existence is being rapidly stepped up in its tempo, that modern life is tremendously faster than it used to be. This undeniable acceleration in the tempo and intensity of our daily activities points to a universal increase in the basic impulses of life itself; for not only do we move faster, we think and feel, react with far more speed and intensity than was the case fifty years ago.

It is also a fact, easily demonstrable by a veritable battalion of instruments, that our human bodies pour forth a constant stream of electrified particles as we go about the business of our normal life. This radiation has been scientifically observed and classified and a multitude of facts tabulated to provide an accurate basis for the diagnosis of many diseases and infirmities.

It is not yet an accepted fact, scientifically observed and catalogued, that this constant radiation from 2000 million human batteries has a very great effect upon the planet itself---and also upon several planets lying far out in our solar system! But it is a fact known to many students of metaphysical processes. And it is a fact that is causing much concern to the Great Invisible Guardians of our humanity.

It may be an astonishing idea to think that you and your thoughts are now, at this moment, having a serious effect upon the beings of a planet millions of miles away. Your separate and individual thoughts may not have very much to do with this radiation, but your thoughts AND the thoughts of three billion other human beings make the idea less ridiculous.

Another fact that is highly important is this: We are rapidly moving into a part of the universe we have never occupied before. We are in the midst of the famous Red Shift as it is scientifically termed. We are entering a part of the universe which contains vibrations, ideas, impulses and activities of which we know very little, and with which we are not prepared to function intelligently. Nevertheless, we are hurtling into what may be properly called The Aquarian Dimension whether we understand it or not; whether we wish to enter it or not. We have little to say about the matter. But there are a few things we can each do to prepare ourselves to absorb and use these new vibrations, even though we understand them but imperfectly.

It is said that every New Age brings its disasters. And if so it is probably because humanity is unable to make the adjustments necessary without great personal dislocation and confusion. But the same forces that produce the disasters also produce highly constructive results and activities for us--if we can manage to avoid the usual confusion and chaos that accompanies any aspect of purification and change. We must prepare NOW to avoid the magnetic attraction which will drag us into the maelstrom of negation and impurity IF WE GO ALONG WITH THE MASS CONSCIOUSNESS, THE BELIEFS OF THE MULTITUDES.

Beser - Four.

THE FIRST FIVE CENTERS OF COSMIC CONSCIOUSNESS, REPRESENTED BY SATURN, JUPITER, MARS, VENUS AND THE MOON, contain the bulk of the Mass Consciousness, contain the basic impulses which find expression by the nameless millions of human entities which manifest, automatically and largely unconsciously, through the physical channels of life on our planet. Hence, it has been said that the number of Man is Five. It has been said also, in various textbooks, that humanity, as a whole, is in the fifth division of the fifth race. This emphasis upon a fifth aspect, or five-fold nature, further points out fact that mankind is living largely through the first five rays or centers of consciousness. To avoid the great planetary conflict about to descend upon mankind, the wise student of the mysteries seeks to rise into a higher dimension---to touch the Sixth Vibration, know the Sixth Sense, Sixth Ray.

This Sixth Ray has often been regarded as---The Christ. While the Seventh or final Ray is termed---The Father. Mercury thus becomes---The Christ. Magnus Aureolus, the Sun, becomes---The Father-in-Heaven.

Beser-On-El, The Etheric Temple of the Sun, hovers today high above the mute evidence of the power of humanity to destroy itself, for the Grand Canyon stands forever as a silent witness to the monumental stupidity which has ever characterized the Mass-Man and his activities.

It was stated in the lesson on Mercury that the Sixth Ray has no power to create or conceive thoughts and ideas, that Mercury takes the ideas and concepts produced by the first five centers---and amplifies, modifies, improves, even immortalizes them. (The ability of the Swiss to expand and develop the ideas of other nations was used to illustrate this feature.)

The products of your five-fold human personality must be offered to the Sixth Ray, The Christ, for purification, expansion and perfection----if one is to rise up out of the Mass-Consciousness of doubt, fear, defeat and death.

The, one final step is taken as Mercury, The Christed-Idea but yet the personal idea, is united with The Sun, The Universal Father-in-Heaven, and thus becomes immortalized in the Seventh Ray, The World-Soul.

(Reference to the supplement to lesson four, "The Nature of the Human Personality" will clarify whatever aspects are uncertain in the students mind.)

Only by contact with The Seventh Ray, The Solar Deity Himself, can we hope to maintain sufficient balance between all the centers of consciousness to avoid being drawn down into the mire of the five personal aspects of being, those limited, incomplete phases of life which destroyed the civilization of Ancient Beser---and many other civilizations history knows little of.

The Golden Light of Ancient Beser blazes radiantly upon mankind at high noon. And from twelve to three the echoing memories of our once great past illumine our daily lives with a promise of the Supreme Fulfillment yet to come. May that Day arrive quickly for all of us, as Children of the Sun!

Beser - Five.
